Asia Pacific Association of Medical Toxicology

Our goal is to promote chemical safety, poison control and treatment within the Asia Pacific region.

Since 1989

Date (First Monday of each Month)	Moderator(s) (PCC) Panelists (30 min) including Q&A	Moderator(s) (ED, ward, ICU, other clinical settings, policy making) Panelists (30 min) including Q&A
3rd July	Prof Winai Wananukul (Bangkok-Thailand) "The Role of Ramathibodi Poison Center in Seasonal Mushroom Poisoning"	Ashish Bhalla <u>Unexplained hepatic failure (Chandigarh-India)</u>

ZOOM Meeting ID: 923 7346 5250

Password: 017285

Clinical case:

Unexplained hepatic failure

A 22-year-old female tailor, admitted in ED with ongoing symptoms of vomiting for 12 days, yellow discoloration of eyes for 10 days, and fever for 2 days along with malaise and loss of appetite. Vitals were PR 90 (regular), GCS 15/15 BP 110/70, RR 16, T 98.6 and SaO₂ of 97% on room air. On examination apart from hepatomegaly and jaundice, other exams were unremarkable. Laboratory data revealed PT/aPTT = 49.6/ 83.6, PTI/INR= 16%/ 5.76 and platelet of 126,000, TB/DB=4.6/2.5 indicating coagulopathy and increased transaminase. Viral markers were unremarkable.

Kind Regards

On behalf of the APAMT Scientific Committee

President: Hossein Hassanian-Moghaddam
